Fraud Detection & Dispute Automation

Protect your banking operations and resolve disputes in hours, not weeks

Fraud and disputes drain billions from banks every year. Intelligale uses AI to detect suspicious activity in real time and automate dispute resolution — reducing losses, improving compliance, and protecting customer trust.

The Challenge

Fraud and Disputes Overwhelm Financial Institutions

- Global fraud losses exceeded $400B in 2023

- Banks spend weeks investigating each dispute manually

- Compliance requirements keep tightening, adding pressure

- Customers lose trust when fraud isn't resolved quickly

The Business Impact of Inaction

What It Costs to Ignore the Problem

Direct financial losses from undetected fraud

Rising labor costs from manual investigations.

**Risk of penalties for late or mishandled disputes**

Our Solution

AI-Powered Fraud Detection & Dispute Automation

Unique Value Proposition

Automated Disputes

Real-Time Detection

Smart Routing

AI

ML models flag suspicious transactions instantly

AI collects evidence, generates case files, and resolves claims.

Escalates complex cases to compliance officers

Proven ROI

Banks See Measurable Results

90%

faster dispute resolution
(days → hours)

Up to 60%

reduction in fraud losses

1M

saved annually in
operational costs

How It Works

Discovery Call
Review fraud trends and dispute workflows

1

Paid Pilot (2–3 months)+Setup & Rollout
Full-scale deployment tailored to your workflows

2

Annual Subscription
Continuous AI updates, fraud models, and compliance monitoring

3
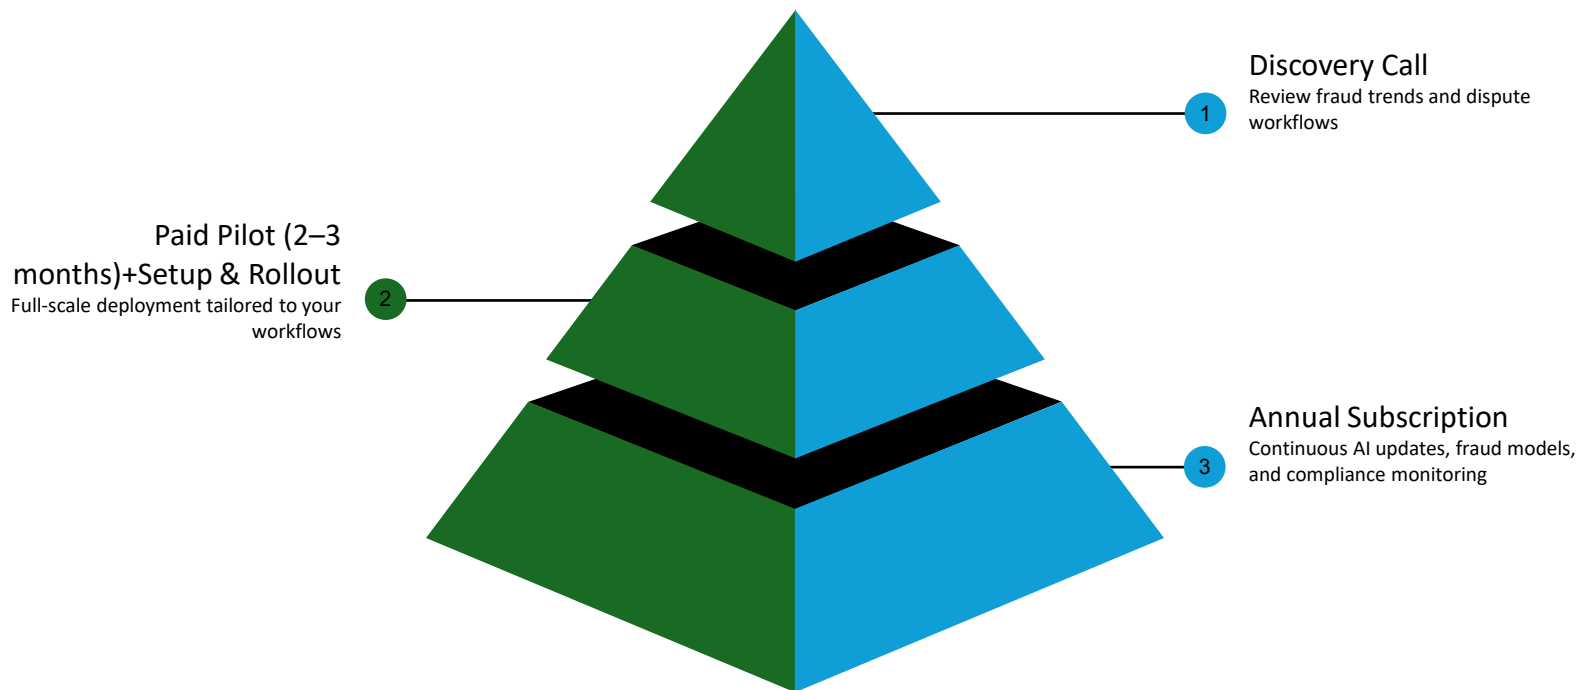

Why Leading Enterprises Choose Us

ROI-first approach: Our clients typically cut operational costs by 30–50%

Enterprise-grade compliance and security: Built for regulated industries.

Custom automation tailored to your workflows: No generic templates, every solution is industry-specific
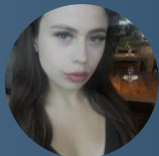

Expertise you can trust: Our AI architects and automation engineers have over a decade of experience in enterprise automation.

INTELLIGALE

INTELLIGALE

AI-Powered Business Process Automation for Enterprises

Gale Lisette
CEO «Intelligale»

Founder's Message

"At Intelligale, we believe automation should deliver measurable business outcomes, not just technology experiments. Our mission is to help enterprises cut costs, reduce risks, and accelerate growth by building custom AI and RPA solutions that align with their industry workflows. We don't sell generic tools — we deliver automation that pays for itself."

Company Overview

We are a driven team of innovators committed to turning ideas into real business value. Our focus is on creating powerful SaaS solutions that don't just work — they help companies grow faster, streamline operations, and achieve measurable results. With every project, we combine technology, creativity, and relentless attention to detail to deliver more than expected.

Services

- AI Claims Automation
- Compliance Workflow Orchestrator
- Vendor Onboarding Automation
- AI Revenue Cycle Automation
- Fraud Detection & Dispute Automation
- AI Maintenance Scheduler

Problem

- Enterprises spend billions annually on manual, repetitive processes.
- Compliance, claims, and approvals are error-prone and slow.
- Legacy systems can't keep up with regulatory change and customer expectations.
- As a result, companies lose revenue, face penalties, and see rising costs.

Solution

- AI + RPA platform designed for regulated industries (finance, healthcare, insurance, manufacturing).
- Custom automation workflows — tailored to industry-specific needs.
- Rapid ROI: most clients see measurable savings in 6–12 months.
- Enterprise-grade compliance and security.

Mission

Our mission is simple: empower businesses with tools that save time, cut costs, and unlock new opportunities for success

Market Stats

- **30–50%** potential cost reduction from automation
- **$25B+** annual RPA/AI market in the US, CAGR > 20%
- **70%** of executives rank automation as a top-3 priority
- **6–12 months** average ROI timeline for enterprise clients

10+ years of experience

Team of AI architects and automation engineers with 10+ years of experience in enterprise solutions

Custom automation

Custom automation tailored to your industry's workflows — no generic templates

– 30–50%

Our solutions typically cut operational costs by 30–50% while increasing processing speed and accuracy.

Stop Fraud Losses Before They Happen

Fraud and disputes don't have to overwhelm your bank. Intelligale helps you detect fraud in real time and resolve disputes automatically — protecting your revenue and your reputation.
