

# Healthcare Prior Authorization Automation

Cut authorization delays by 80% and recover millions in lost revenue

## Prior Authorization: A Broken System

2–3 weeks average delay in prior authorizations.

82% of physicians report treatment delays caused by authorization.

Hospitals lose millions annually from denied or delayed claims.

Administrative costs continue to grow while staff shortages worsen.

## What It Costs to Do Nothing

Delayed care frustrates patients and drives them to competitors.

Denied claims reduce revenue and increase write-offs.

Rising labor costs from manual data entry and follow-ups.

Compliance risks with HIPAA and CMS regulations if errors occur.

# Our Solution

AI-Driven Prior  
Authorization Automation

Intelligale automates the entire prior authorization process:

### **Eligibility Verification:**

Automatically check payer requirements in real time.

### **Intelligent Routing**

Routes exceptions to the right staff instantly.

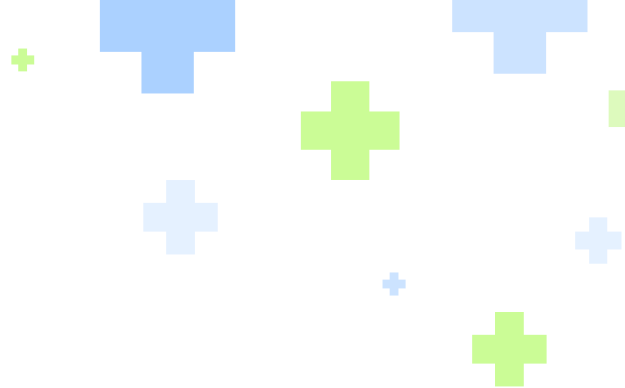

### **Form Submission & Tracking**

AI fills and submits payer forms, monitors status.

### **Audit-Ready Compliance**

Secure, HIPAA-compliant workflows.

**Proven ROI**

## Healthcare Providers See Immediate Gains

### 80% reduction

80% reduction in authorization delays — from weeks to 1–2 days

80%

### 25–40% more claims approved

- 25–40% more claims approved on first submission.
- Lower staff burden: fewer phone calls, faxes, and manual follow-ups.

25–40%

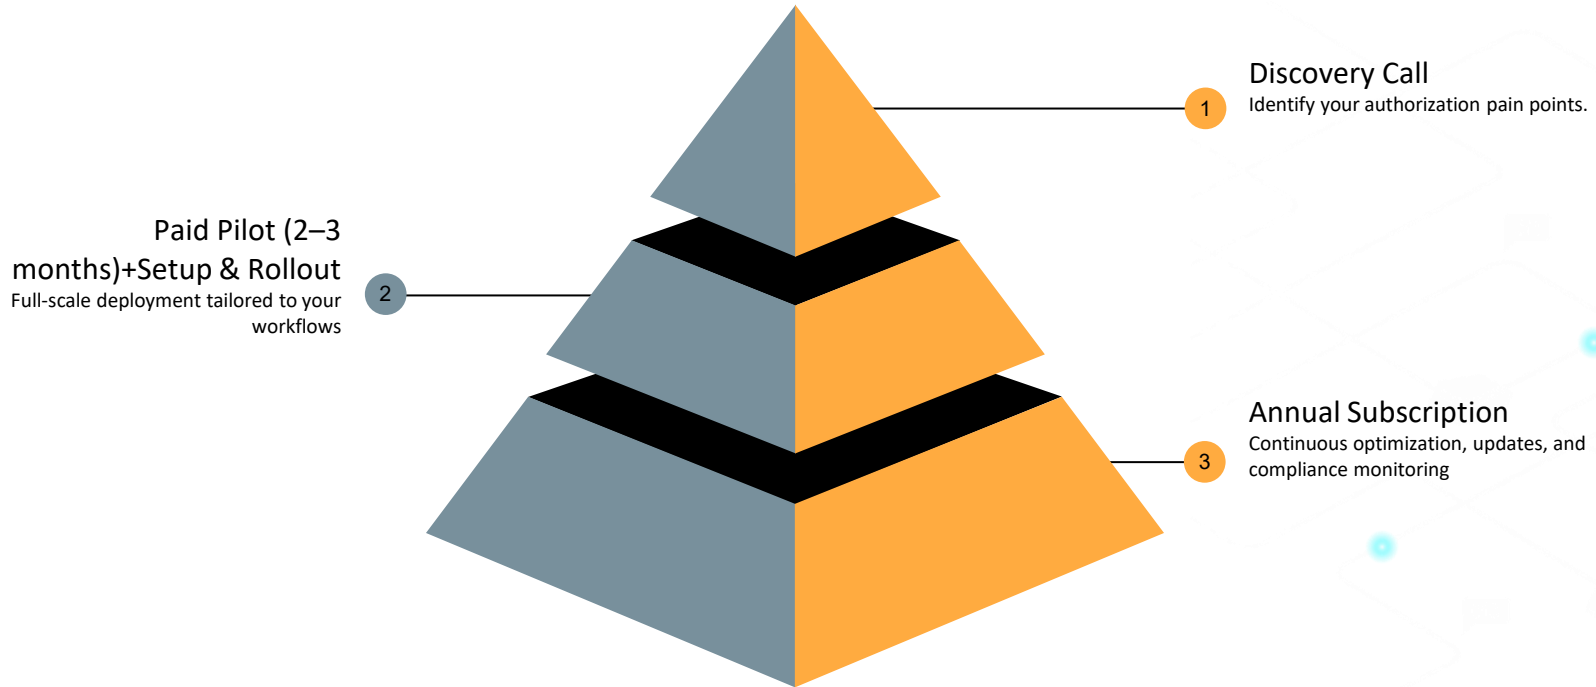

### Millions in recovered revenue

Millions in recovered revenue annually for hospitals and providers

# How It Works

## Why Leading Enterprises Choose Us

### **ROI-first approach:**

Our clients typically cut operational costs by 30–50%

**Enterprise-grade compliance and security:** Built for regulated industries.

### **Custom automation tailored to your workflows:**

No generic templates, every solution is industry-specific

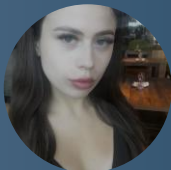

### **Expertise you can trust:**

Our AI architects and automation engineers have over a decade of experience in enterprise automation.

# INTELLIGALE

## AI-Powered Business Process Automation for Enterprises

**Gale Lisette**

CEO «Intelligale»

### Founder's Message

*"At Intelligale, we believe automation should deliver measurable business outcomes, not just technology experiments. Our mission is to help enterprises cut costs, reduce risks, and accelerate growth by building custom AI and RPA solutions that align with their industry workflows. We don't sell generic tools – we deliver automation that pays for itself."*

### Company Overview

We are a driven team of innovators committed to turning ideas into real business value. Our focus is on creating powerful SaaS solutions that don't just work – they help companies grow faster, streamline operations, and achieve measurable results. With every project, we combine technology, creativity, and relentless attention to detail to deliver more than expected.

### Services

AI Claims Automation

Compliance Workflow  
Orchestrator

Vendor Onboarding  
Automation

AI Revenue Cycle  
Automation

Fraud Detection &  
Dispute Automation

AI Maintenance Scheduler

### Problem

- Enterprises spend billions annually on manual, repetitive processes.
- Compliance, claims, and approvals are error-prone and slow.
- Legacy systems can't keep up with regulatory change and customer expectations.
- As a result, companies lose revenue, face penalties, and see rising costs.

### Solution

- AI + RPA platform designed for regulated industries (finance, healthcare, insurance, manufacturing)
- Custom automation workflows – tailored to industry-specific needs.
- Rapid ROI: most clients see measurable savings in 6–12 months.
- Enterprise-grade compliance and security.

### Mission

Our mission is simple: empower businesses with tools that save time, cut costs, and unlock new opportunities for success

### Market Stats
